Statement of Commitment to Child Safety

The Bulli Football Club is committed to providing a safe environment for children and young people within our club. We want a culture where the safety, wellbeing and inclusion of children and young people participating in our club activities is central to all our decision making.

Our Club requires all members to adhere to our Code of Conduct and support us in providing an environment that provides safety for all members regardless of their age. All coaching staff and volunteers working with children are required to have a Working with Children Check (WWCC). The club has a zero tolerance to all forms of child abuse, bullying and harassment. The Club will treat seriously all allegations and safety concerns raised, in line with our policies and procedures which are underpinned by law.

The club leadership will ensure all members are aware of their responsibilities, we encourage feedback from children, younger players, parents, and guardians on how we can make our club a better environment and safer for our youngest members.
